About Evolution Petroleum

Evolution Petroleum Corporation acquires known, onshore oil and gas resources and applies conventional and specialized technology to accelerate production and develop incremental reserves and value. The Company is well positioned to continue its development projects in CO₂ based EOR, bypassed resources and low cost shale gas. Principal assets as of July 1, 2009 include 3.9 MMBOE of proved and probable reserves in the Giddings Field of Central Texas, 0.5 MMBO of proved and unproved reserves with 90+ additional locations in South Texas, 13.6 MMBO of producing probable reserves in the Delhi CO₂ EOR project in northeast Louisiana, 17,680 net acres of leases in shallow gas shale in Eastern Oklahoma and a proprietary artificial lift technology intended to extend the life of horizontal wells with oil or associated water production.

Additional information, including the Company's annual report on Form 10-K and its quarterly reports on Form 10-Q, can be accessed on its website.
